

## ABSTRACT OF THE DISCLOSURE

A METHOD FOR ENHANCING THE WATER REPELLENCY OF INORGANIC  
5 BINDER COMPOSITIONS, THE COMPOSITIONS CAPABLE OF BEING  
OBTAINED BY THIS METHOD AND THE USES OF THESE  
COMPOSITIONS

10 The invention concerns a method for enhancing water-  
repellency treatment of mineral hydraulic binder  
compositions and compositions obtainable by said method  
and their uses in the building sector, said method  
comprising the step of adding a sufficient amount of at  
15 least one monovalent cation salt of a carboxylic acid to  
said composition.
